

“ Mom, did you take your medicine today? ”

Now, Safe Choices takes the worry out of caring for your aging parents and helps to insure they take their medications every day.

Daily medicines are important to safeguard the health and well-being of your aging parents. Yet, how often do you call and wonder whether your mom or dad is taking each medicine every day, on time and in the right amount?

Safe Choices now offers an electronic medication dispenser for the home, linked to a call center and accessible to you online, as part of our outstanding senior services program. An optional “lifeline” alert service is available with this dispenser system.

Our Medication Management Service provides:

- Automatic, electronic medication dispenser in the parent’s home
- Dispenser uses the phone line to record each time medication is taken
- Family member can check status online 24/7 over secure Internet site
- Daily monitoring includes a reminder phone call to the parent if dose is missed
- Call center notifies family and Safe Choices staff if parent cannot be reached
- Home visits by our professional staff are included, tailored to meet your parent’s needs.

CALL SAFE CHOICES for complete information about safeguarding your aging parents and keeping them healthy and happy at home. 817-847-8888

Safe Choices is a comprehensive program of senior care services and planning. Our caring, compassionate professional team can help you find solutions for senior safety and other important quality of life issues for aging loved ones. Contact us for an in-home assessment of your senior’s needs today.
